South African Journal of Clinical Nutrition, 2025

The triple burden of obesity, HIV and anaemia during pregnancy and associations with delivery outcomes in urban South Africans

Alessandra Prioreschi*†, Stephanie V Wrottesley†, Linda Adair, Kate A Ward and Shane A Norris

Supplementary Figure 1: Flow chart of participants within the Soweto First 1000-Day Study (S 1000)

^a Of eligible women approached at the Antenatal Clinic and Fetal Medicine Unit at Chris Hani Baragwanath Academic Hospital, 85% consented to participate. Women who refused to participate were not different in age, BMI, or education, but participants were more likely to be married
